

## We want to hear from you!

This survey is the same as our online survey on our website. Please complete either this paper survey or the online survey, but not both.

Please take a moment to answer the following questions to let us know about how transit can serve you and your community. Survey responses will guide how we design the final long-term network. Please learn more at each station and provide answers to the following questions:

### 1. Which priorities are most important?

Transit can be designed for different priorities. Which priorities are more important to you? Which are less important? Please rank each priority from 1-8 (with 1 being the MOST important) USING EACH NUMBER ONLY ONCE.

Transit access for everyone

Shorter walks to the bus

Shorter waits between buses (more frequent service)

Higher ridership

Transit to more places than today

More express service to downtown

Longer service hours (evenings and weekends)

Service in busy places

### 2. What new places would you like served by transit?

Please rank each priority from 1-5 (with 1 being the MOST important) USING EACH NUMBER ONLY ONCE.

Innsbrook

Short Pump

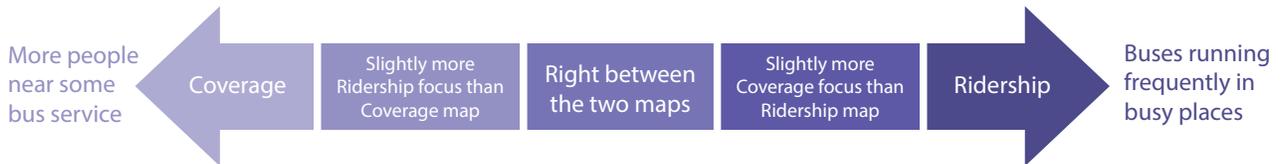

The Airport

Virginia Center Commons

Other: \_\_\_\_\_

### 3. Coverage vs. Ridership

In transit-planning, one major trade-offs is between RIDERSHIP and COVERAGE. Systems that prioritize RIDERSHIP run all buses along busy routes where there are lots of jobs, people and destinations. Systems that prioritize COVERAGE spread out buses so that many people have access to infrequent service. Transit systems are often asked to do both but must find a balance that suits the community it serves. How do you think Henrico’s transit network should prioritize? Please review Board #2 and Board #3 before answering.

### 4. Additional Comments?

Do you have any other comments about the transit network concepts or the Transit Network Plan?
