Richmond, VA 23219

**RE: Response to UDC/Planning Commission Comments from September 9, 2015 PC Meeting Minutes**

**UDC/PC Comment #18:** *That the BRT planning team considers providing higher capacity bike racks at stations.*

**Applicant Response:**

The design team will ensure that the technical requirement documents call for bike racks that are of a design approved by the City. The design team will require 52 dual bike racks as described in the 30% design documents. In addition, the design team will instruct that 6 additional quad bike racks are provided in the project and placed in station locations to be determined by the design builder working with the City.
