### **BACKGROUND:**

GRTC's 2018-2028 Transit Development Plan (TDP) was adopted by the Board in July 2018. DRPT requires agencies to provide an update annually for the TDP through the lifetime of the document. Several capital and service projects identified in the TDP for FY2019 were implemented, and several have been implemented or are planned to be completed by the end of FY2020. These include service initiatives that were originally planned for beyond FY2022. Staff will highlight some of the initiatives proposed for FY2021.

**CURRENT STATUS:** The 2019 TDP Update has been completed and will be submitted to DRPT for review following the Board meeting.
