

EXHIBIT L

IT (SERVICES) – ADDITIONAL TERMS AND CONDITIONS FOR THE PERFORMANCE OF INFORMATION TECHNOLOGY (IT) SERVICES

1.1 Definitions. Unless otherwise specified in this Contract (or an Exhibit hereto), the following definitions shall apply, if applicable:

- 1.1.1 “Acceptance” shall have the meaning set forth in Section 1.4 of this Exhibit.
- 1.1.2 “Applicable Laws” means any and all applicable statutes, laws, treaties, rules, codes, ordinances, regulations, permits, interpretations, or orders of any Federal, state, or local governmental authority having jurisdiction over the Project, this Contract, and the parties all as in effect as of the date of this Contract and as amended during the Service Term of this Contract.
- 1.1.3 “Authority Data” means all data, content and information (i) submitted by or on behalf of the Authority or Customers to the Contractor, (ii) obtained, developed, produced or processed by the Contractor in connection with this Contract, or (iii) to which the Contractor has access in connection with this Contract, and all derivative versions of such data, content and information, and any derivative versions thereof, in any form or format.
- 1.1.4 “Authority Electronic Property” means (i) any websites, servers, hardware, equipment, routers and other system components, software or networks owned or controlled by the Authority, (ii) any Authority mobile device apps, (iii) any interfaces to the Authority’s information technology systems, (iv) any other kiosks, devices or properties for consumer interaction that are created, owned, or controlled by the Authority, and (v) versions and successors of the foregoing, any form or format now known or later developed, that may be used by Customers.
- 1.1.5 “Confidential Information” shall have the meaning set forth in Section 2.2 of this Exhibit.
- 1.1.6 “Contractor’s Certification” shall have the meaning set forth in Section 1.4.3 of this Exhibit.
- 1.1.7 “Contractor Technology” means all software and hardware as applicable, and any technology, information, content and data, together with Intellectual Property Rights related thereto, owned or used by the Contractor in the performance of the Services.
- 1.1.8 “Deliverable(s)” means all information, data, materials, devices (including equipment and hardware), software, systems, integrations with any software and hardware, interfaces to any software and hardware, system or operating environment (including Authority Electronic Property) and other items to be delivered by the Contractor to the Authority as part of the Services, as specified in the Project Plan.
- 1.1.9 “Documentation” means the documentation provided to the Authority including, but not limited to, user manuals, system administration manuals, maintenance manuals, diagrams and operator instructions related to the Services furnished by the Contractor to the Authority in any format, including paper and electronic.
- 1.1.10 “Intellectual Property Rights” means any and all intellectual property rights, including without limitation, invention, patents, patent and patent applications (including all reissues, divisions, renewals, continuations, continuations-in-part, extensions, provisionals, and reexaminations) and all rights therein provided by international treaties or conventions and all improvements to the inventions disclosed in each such registration, patent or application, trademarks, service marks, trade dress, logos, slogans, configurations, trade names, corporate names, and business names, whether or not registered, including all common law rights, and registrations and applications for registration thereof, and all rights therein provided by international treaties or conventions, works of authorship and copyrights (registered or otherwise) and registrations and applications for registration thereof, and all rights therein provided by international treaties or conventions, all internet uniform resource locators, and domain names, including any domain

name application or registration, all industrial designs and any registration or application thereof anywhere in the world, data and database rights, trade secrets, proprietary know-how and show-how, whether or not reduced, all rights to obtain and rights to apply for patents, and to register trademarks and copyrights, and any similar or equivalent rights to any of the foregoing anywhere in the world.

- 1.1.11 “Malware” means any malicious data, code, script, active content, program, or other malicious software that could damage, destroy, alter or disrupt any computer program, data, firmware or hardware.
- 1.1.12 “Project” means the project from pre-production launch to pre-final notice related to any Deliverables and Services as described in more detail in this Exhibit.
- 1.1.13 “Project Plan” means the project plan for the delivery, implementation, customization, configuration and/or installation of any software, hardware and any Deliverables and Services required for the Project, as provided or approved by the Authority.
- 1.1.14 “Remediation Efforts” means, with respect to any Security Incident, activities designed to remedy a Security Incident, which may be required by Applicable Law or by the Authority’s or the Contractor’s policies or procedures or under the Security Requirements, or which may otherwise be necessary, reasonable or appropriate under the circumstances, commensurate with the nature of such Security Incident.
- 1.1.15 “Security Incident(s)” means: (i) the loss or misuse of Authority Data; (ii) the inadvertent, unauthorized, or unlawful processing, alteration, corruption, sale, rental, or destruction of Authority Data; (iii) unauthorized access to internal resources; (iv) programmatic manipulation of a system or network to attack a third party; (v) elevation of system privileges without authorization; (vi) unauthorized use of system resources; (vii) denial of service to a system or network; or (viii) any potential or confirmed exposure (which may stem from an act or omission to act) that would result in any of the events described in (i) through (viii).
- 1.1.16 “Security Requirements” means industry best practices and other reasonable physical, technical and administrative safeguards, procedures, protocols, requirements and obligations related to facility and network security in order to protect Authority Data from unauthorized access, processing, destruction, modification, distribution and use, as approved in writing by the Authority.
- 1.1.17 “Service Term” means the term of the contract as set forth in Exhibit A to the Contract.
- 1.1.18 “Services” means collectively all services to be performed by the Contractor for or on behalf of the Authority, as described in the Project Plan and this Exhibit.
- 1.1.19 “Technical Specifications” means the technical specifications, functional specifications, descriptions, designs, standards, instructions, and business requirements of the Authority related to the S, as may be further described in this Contract. Unless otherwise agreed upon in writing by the Authority, the Technical Specifications shall be outlined in detail in Exhibit H to this Contract.
- 1.1.20 “Updates” means all bug fixes, error corrections, patches, updates, upgrades or new releases or version of any software created or acquired by the Contractor and used in provision of the Services during the Service Term.

1.2 Contractor Requirements.

- 1.2.1 Unless specified in the applicable Project Plan, the Contractor will shall furnish, at its own expense, all resources, personnel, equipment, tools, and supplies necessary for the timely performance of the Services and the Deliverables. The Contractor may use any means necessary and appropriate to perform the Services and the Deliverables under this Contract; provided,

however, that in no event shall the Contractor take any action that may subject either it or the Authority to civil or criminal liability.

- 1.2.2 The parties agree that the Contractor will not be tasked or responsible for establishing and managing Security Requirements necessary to protect Authority Data integrity in performance of the Services. The Authority agrees that it will be solely responsible for and ensure that all desired Security Requirements necessary to protect Authority Data integrity are established, implemented and managed internally. If requested, however, by the Authority, the Contractor will reasonably cooperate with and assist the Authority and the Authority's other Product contractors to implement security protocols (e.g., firewalls, SSI, McAfee anti-virus, configuring the system for Cisco ICE, configuring the system for the NetScaler application firewall, monthly Microsoft security patches, etc.) and take appropriate actions with respect to any software, hardware and all Authority Data and Authority Electronic Property disclosed or provided to the Contractor so as to enable the Contractor to satisfy its obligations under this Contract and to help prevent the loss, alteration or unauthorized use of the Authority Data and the Authority Electronic Property, to the extent within the Contractor's access, possession or control. The Contractor agrees that it will, and it will cause its personnel and contractors to timely comply with the Authority's privacy policies and safety and network security policies, as the same may be provided to the Contractor's, at all times while on-site at the Authority's facilities or remotely accessing the Authority's systems or facilities. In event that the Contractor utilizes computers, laptops or other devices comprising development software, applications or tools in its performance of the Services, Contractor is required to consult in advance of use thereof with Authority and review security measures installed on such computers or devices and sign-off that it will ensure its computers and devices are consistently maintained during the term of this Agreement per Authority with all patches and upgrades at all times to minimize potential induced security issues from such Contractor devices.
- 1.2.3 The Contractor will perform formal classroom training and provide necessary related documentation, equipment, tools, training aids and other materials, required or requested for the operation and use of the Deliverables and any software and/or hardware, upon initial deployment and during the Service Term, as reasonably requested by the Authority. Such training will be performed on the operating environment at the Authority's facilities (unless otherwise agreed upon by the parties in the Project Plan).
- 1.2.4 The Contractor and/or its designated third party auditor(s) will perform all audits necessary to ensure data integrity and adherence to the requirements of the Project. As part of its routine audits, the Contractor will, on a regular basis, test the integrity of Authority Data backed up by the Authority's or its Project contractors.
- 1.2.5 The Contractor will use commercially reasonable efforts to reasonably assist the Authority, if requested, to adopt and implement all facility and network security, disaster recovery plans and back-up plans as to protect against theft and unauthorized access, disclosure and use of the Authority Data, the Authority Electronic Property and the Authority's Confidential Information, to the extent within the Contractor's access, possession or control, and to ensure the integrity and continuity of the performance of Services and the Project under this Contract and consult and cooperate with the Authority and any contractors it designates, in its performance of these obligations.
- 1.2.6 The Contractor, as well as its agents, representatives, and employees, shall comply with all of the Authority rules, regulations, and guidelines then in effect when on-site at the Authority and all Applicable Laws.
- 1.2.7 The Contractor will promptly notify the Authority upon discovering or otherwise learning of any Security Incident involving Authority Data. Following any Security Incident the Contractor will consult in good faith with the Authority regarding Remediation Efforts that may be necessary and reasonable.

1.2.8 Any notifications to Customers or any employees of the Authority regarding Security Incidents will be handled exclusively by the Authority and the Contractor may not under any circumstances contact Customers or employees of the Authority relating to such Security Incident unless the Contractor is under a legal obligation to do so, in which event (i) the Contractor must notify the Authority in writing promptly after concluding that the Contractor has the legal obligation to notify such Customers or employees and explain in such notice to the Authority the basis for the legal obligation and (ii) the Contractor will limit the notices to such Customers and employees to those required by the legal obligation or as pre-approved by the Authority. The Contractor will reasonably cooperate in connection with notices to Customers and any employees of the Authority regarding a Security Incident and the Contractor will assist with sending such notices if so requested by the Authority.

1.3 Project Plan and Milestone Deadlines.

1.3.1 The Contractor shall provide Services necessary to assess and evaluate the Authority's business requirements and information technology systems in order to create, deploy, configure, customize, migrate, deliver and/or implement the Services and any software and/or hardware and, if required by the Authority, any Authority Data to be migrated, interfaced to or used in conjunction with the Deliverables. Unless otherwise provided or specified by the Authority, the Contractor will prepare for the Authority's review and approval a Project Plan setting forth in detail (i) the scope of the Project and the Services required to complete the Project, (ii) the milestones and schedule for completing all tasks and requirements for the Project (including the creation, deployment, configuration, customization, migration, delivery and/or implementation of any software, hardware, systems and any Authority Data), (iii) all Authority Electronic Property required for the Contractor to perform the Services, if any, (iv) all Deliverables, and (v) all acceptance criteria, testing and post-implementation tasks. No Project Plan will be effective until approved in writing by the Authority's designated project manager.

1.3.2 This is a fast track Project with completion deadlines that cannot reasonably be extended. For this reason, it is the desire of the Authority to recognize any likely budget overruns as soon as possible, and by this Contract it is employing the Contractor to perform design monitoring, estimating, value analysis and other functions to help the Authority meet the Project budget. At any time that the Contractor develops concerns about the integrity of the budget for the Project, the Contractor shall promptly advise the Authority of the concerns through a variance report, which shall, at a minimum, state: (i) the Contractor's concern; (ii) the apparent cause of the concern, delay, or budgetary issue; (iii) in the event of a concern about a delay, specifically demonstrate the negative impact of the delay to the critical path for the Project Plan; (iv) define any cost impacts to the Project; and (v) provide the Contractor's proposed resolution to the concern. If any estimate submitted to the Authority exceeds previously approved estimates or the Authority's budget, the Contractor shall make appropriate recommendations to the Authority.

1.3.3 If, using reasonable project monitoring techniques, the Contractor determines that it is unlikely or fails to meet a completion date or a cost estimate due under the Project Plan for any reason regardless of which party is at fault, in addition to any other rights and remedies that may be available to the Authority, at no additional cost to the Authority and at the Authority's option, the Contractor shall provide all necessary additional personnel at its own cost to accelerate performance as may be required or necessary to complete the activities required under the Project Plan within a re-adjusted time frame agreed to by both parties in a Change Order. The completion date shall be considered met if completed in accordance with the terms of this Contract within ten (10) working days of the originally estimated completion date. The Contractor will provide the Authority with prior written notice for any delays impacting delivery or other Services completion under the Project Plan in the form of a proposed Change Order.

- 1.3.4 The Contractor shall use its best efforts, after obtaining explicit consent from the Authority, to re-sequence the Services to overcome and/or mitigate, to the greatest practicable extent, the effect of any delays regardless of the cause of such delays. Without limiting the foregoing, the Contractor shall diligently prosecute its Services in order to meet the proposed start date despite a dispute with the Authority relating in any way to this Contract including, without limitation, any and all the Contractor's claims for modifications to the payments due to the Contractor. The Contractor and the Authority shall cooperate to resolve all disputes and to adjust the Project Plan accordingly by Contract modification in a timely manner (not to exceed two (2) weeks from the date of notice).
- 1.3.5 Should the Contractor not progress in its performance of Services at a rate commensurate with the Service Term of this Contract, or fail to meet any scheduled date under the Project Plan, the Authority may, in its sole discretion, direct the Contractor to accelerate the Services by employing additional personnel and equipment or providing overtime to existing personnel as is necessary to complete by the start date. Notwithstanding any dispute, controversy, or question that might arise in the interpretation of any provision of this Contract, the performance of any Services, the delivery of any material, the payment of any monies to the Contractor, or otherwise, the Contractor agrees that it will not directly or indirectly stop or delay any Services or part thereof on its part required to be performed, nor will it stop or delay the delivery of any materials on its part required to be furnished for the Deliverables, pending the determination of such dispute or controversy so long as the Authority pays the Contractor for undisputed amounts in accordance with the Contract.

1.4 Acceptance.

- 1.4.1 Unless otherwise defined or specified in an Exhibit to this Contract, the provisions set forth in this Section 1.4 shall apply to determine the Authority's Acceptance of the Services performed and associated Deliverables.
- 1.4.2 Implementation shall be completed in a timely manner and appropriate tests conducted by the Authority to facilitate Acceptance of each Deliverable as more fully set forth in this Exhibit and the Project Plan; provided, however, that the Authority may upon written request require that the Contractor perform testing with cooperation of the Authority.
- 1.4.3 Unless otherwise specified in the Project Plan, within thirty (30) days after installation and testing are completed, the Contractor shall certify in writing that any software, hardware, integration and implementation related to the Services conforms to the Technical Specifications and is capable of being put into full commercial productive use in accordance with the Technical Specifications and otherwise meets the functional and business requirements set forth in this Contract (the "Contractor's Certification"). The Contractor Certification shall not be issued by the Contractor unless the Contractor has completed all tasks required for the delivery, installation, configuration, deployment (including Authority Data migration) and operational testing of any Deliverables, as applicable, and such items are ready for final testing and launch for production use by the Authority.
- 1.4.4 The Deliverables shall be finally accepted by the Authority when all action items opened from the beginning of the Project through the Warranty Period are closed and each component is fully installed and operational on the Authority's facilities, network, transportation vehicles or operating environment properly configured by the Contractor, and in conformity with the requirements outlined in this Contract ("Acceptance"). The final invoice will not be issued by the Contractor until final Acceptance by the Authority. The Authority reserves the right to modify the Acceptance plan during the implementation process if it is evident that anything related to Acceptance has been missed or are not appropriate for the successful provisioning of any solution.
- 1.4.5 If there is any objection to Acceptance, the Authority will provide the Contractor with a written notice (the "Defect Notice") reasonably identifying any claimed discrepancies between the

actual performance and the requirements set forth in this Contract within reasonable time after the issuance of the Contractor's Certification.

- 1.4.6 Upon receiving a Defect Notice from the Authority, the Contractor shall confer with the Authority and jointly review each asserted discrepancy to determine if the claimed discrepancy is valid. The Contractor shall promptly correct the discrepancy and resubmit for Acceptance by the Authority for review and testing on the same basis as initially submitted. If, in the reasonable professional judgment of the Contractor such discrepancy is not valid, the Contractor shall so notify the Authority in writing.
 - 1.4.7 In the event that the Authority, upon final review, does not accept the Deliverables or any hardware or software or only makes a partial acceptance thereof, the Authority may elect to: (i) accept delivery of the Deliverables "AS IS" at a negotiated equitable reduction in the price and payment schedule for the Services and any Deliverables; or (ii) terminate the Project and receive a refund of all fees paid in advance to the Contractor, which in such event. The Contractor shall immediately repay all fee advances paid by the Authority under the Project Plan and the Authority may retain all holdbacks.
- 1.5 Additional Representations and Warranties. In addition to all other representations, warranties, and covenants included in this Contract, Contractor represents, warrants, and covenants, for itself, its employees, subcontractors and agents that:
- 1.5.1 it is not contractually prohibited from engaging in the Services or providing the Deliverables, and that it is not a party to any contract or under any obligation which conflicts with the terms of this Contract or which prohibits Contractor from carrying out its responsibilities under this Contract;
 - 1.5.2 it is fully able to furnish the Services as contemplated by this Contract;
 - 1.5.3 there are no contracts to which it is a party which would prevent its timely and complete performance of the terms and conditions of the Contract, and the Contractor agrees not to enter into any such contract during the pendency of this Contract;
 - 1.5.4 it is experienced in the type of engineering necessary for completion of the Project, and it understands the complexity involved in this type of project and the necessity of coordination of its Services Authority project stakeholders within which the Project will be performed;
 - 1.5.5 any software provided or utilized in the Services will not contain any Malware;
 - 1.5.6 the Services and all Deliverables will comply with all Applicable Laws at all times from the date of Acceptance; and
 - 1.5.7 with respect to the Services and all Deliverables there is, and on the date of Acceptance will be, no claim, litigation or proceeding pending or threatened against the Contractor with respect such Services or Deliverables, or any component thereof, alleging infringement or misappropriation of any patent, copyright, trade secret, trademark or any other personal or proprietary right of any third party in any country.
- 1.6 Additional Warranty Remedies. The Authority is entitled to all warranties implied by law or regulation. These warranties shall survive any inspection, testing, acceptance and payment by the Authority for the Services and are in addition to, and shall not be construed as restricting or limiting the warranties of the Contractor, express or implied, that are provided by law or exist by operation of law. For any breach of the warranties contained in this Section, the Authority's remedy, in addition to all remedies available at law or in equity, shall be:
- 1.6.1 For the Services. The satisfactory re-performance of the Services within ten (10) days (or such other reasonable period of time approved by the parties in writing) following the Authority's notice to the Contractor that the Services were not performed satisfactorily in accordance with the Project Plan.

1.6.2 For the Deliverables. The correction of errors or otherwise in the Deliverables that cause breach of the warranty. If the Contractor is unable to provide such error corrections or otherwise make the Deliverables operate as warranted within the periods specified in this Contract, the Authority shall be entitled to terminate this Contract with respect to the affected feature and recover a prorated amount paid to the Contractor based on each feature, which prorated amount will be calculated based on a useful life of five years from the date of final Acceptance. If, however, the loss of functionality cause by such error impacts the overall performance of any Deliverables, then the Authority shall be entitled to terminate this Contract and recover all amounts paid to the Contractor by the Authority.

1.7 Intellectual Property Rights.

1.7.1 As between the Contractor and the Authority (i.e., without addressing rights of third parties), the Authority is the sole owner of all rights, title and interest in and to any Authority Data and Authority Electronic Property and all Deliverables (excluding the Contractor Technology included in or embodied in the Deliverables), together with all improvements, derivative works or enhancements to any of the foregoing and all Intellectual Property Rights related thereto (“Authority IP”). Except as expressly authorized in this Exhibit in the performance of the Services solely for the benefit of the Authority or Customers, the Contractor may not use, edit, modify, create derivatives, combinations or compilations of, combine, associate, synthesize, re-identify, reverse engineer, reproduce, display, distribute, disclose, sell or Process any Authority Data or Authority Electronic Property. The Contractor will not use any Authority Data or Authority Electronic Property in a manner that is harmful to the Authority. To the extent possible, the Deliverables (excluding any Contractor Technology embodied therein) shall be a work made for hire specifically commissioned for the Authority. In order to protect and preserve the Authority’s rights, the Contractor hereby irrevocably and unconditionally assigns and transfers to the Authority all right, title and interest in and to the Authority IP that the Contractor may acquire without further consideration.

1.7.2 The Contractor grants to the Authority a non-exclusive, perpetual, royalty free, fully paid up, irrevocable, and transferable license, with the right to sublicense, in and to any Contractor Technology embodied in the Deliverables for the Authority and service providers to exercise and exploit its and their ownership rights in the Deliverables in any manner. The foregoing license does not authorize the Authority to separate any Contractor Technology from the Deliverable in which it is incorporated for creating a standalone product for marketing to others.

2. Proprietary Information and Non-Disclosure.

2.1 The Contractor acknowledges and agrees that this Contract creates a relationship of confidence and trust on the part of the Contractor for the benefit of the Authority. During the Term of this Contract, the Contractor may acquire certain “Confidential Information” (as defined herein) from or regarding the Authority employees, agents and representatives or documents, or otherwise as a result of performing the Services of the Contractor hereunder.

2.2 “Confidential Information” as used herein, shall mean and include, without limitation:

2.2.1 Any information concerning the Authority or the Project, which is provided by the Authority or any Project team members to the Contractor, such as accounting and financial data, product, marketing, development, pricing and related business plans and budgets, and all of the information and plans related to the Project, which are not published;

2.2.2 All Authority Data and Authority Electronic Property; and

2.2.3 All Deliverables (including without limitation all work in progress) and any Contractor Technology included or embodied therein.

- 2.3 The Contractor acknowledges and agrees that all such Confidential Information is and shall be deemed the sole, exclusive, confidential and proprietary property and trade secrets of the Authority at all times during the Service Term of this Contract and following any expiration or termination hereof. The Contractor agrees to hold in confidence without disclosing or otherwise using any Confidential Information, except as such disclosure or use may be required in connection with and limited to the Services of the Contractor hereunder.
- 2.4 The Contractor acknowledges and agrees that the Authority would not have entered into this Contract unless the Authority was assured that all such Confidential Information would be held in confidence by the Contractor in trust for the sole benefit of the Authority.
- 2.5 The Contractor shall not improperly use or disclose any proprietary information or trade secrets of any third party and will not bring on to the premises of the Authority any unpublished documents or any property belonging to any third party unless consented to in writing by the third party.
- 2.6 The Contractor's obligation of confidentiality hereunder shall not apply to information that: (i) is already in the Contractor's possession without an obligation of confidentiality; (ii) is rightfully disclosed to the Contractor's by a third party with no obligation of confidentiality; or (iii) is required to be disclosed by court or regulatory order, provided the Contractor's gives the Authority prompt notice of any such order.
- 2.7 The Authority shall have the perpetual and unrestricted right to use, copy, and incorporate into other works all reports, materials, presentations and other work product prepared by the Contractor and delivered to the Authority.
- 2.8 Upon any termination or expiration of this Contract, the Contractor agrees to deliver to the Authority any and all Confidential Information except that the Contractor may keep one file copy of any Confidential Information pertinent to its rights and obligations surviving the expiration or termination of this Contract, which copy shall be held in confidence in accordance with this Section.
3. Use of Authority's Name. The Contractor agrees not to make any written use of or reference to the Authority's name for any marketing, public relation, advertising, display or other business purpose or make any use of the Authority Data or Authority Electronic Property for any activity unrelated to the express business purposes and interests of the Authority under this Contract, without the prior written consent of the Authority.
4. Specific Performance. The Contractor acknowledges and agrees that the remedy at law for the breach of provisions of this Contract (particularly with respect to ownership of intellectual property and Confidential Information) may be inadequate and that the Authority may be entitled to injunctive relief without bond, in addition to any other rights or remedies which the Authority may have for such breach.
5. Indemnification. In addition to general indemnification set forth elsewhere in the Contract, the following indemnification obligations shall apply:
 - 5.1 The Contractor shall indemnify, defend and hold harmless the Authority and its affiliates and their trustees, directors, officers, employees, Customers and agents from and against any and all Damages of any nature or kind to the extent arising out of, caused by, or resulting from: (i) any bodily injury or death of any person incurred by the Authority or any third party resulting from the negligence or willful misconduct of the Contractor or its employees, contractors or representatives; (ii) any failure of the Services or Deliverables to conform with Applicable Laws or the Technical Specifications or other requirements set forth in this Contract; (iii) any Security Incident; and (iv) any actual or alleged violation, infringement or misappropriation of any copyright, patent, trademark, trade secret, product name, right of privacy or persona or other intellectual property right and proprietary right of a third party related to the Services and Deliverables regardless of whether or not such claim, damage, loss, or expense is caused in part by any indemnitee. In particular, the Contractor acknowledges that the Contractor's obligation to indemnify the Authority extends to any liability arising out of any actual negligence by the Contractor in the delivery of any products or services under this Contract. Notwithstanding the foregoing, the Contractor shall not be liable to an indemnitee for

any losses incurred by such indemnitee to the extent such claim is attributable solely to that indemnitee's sole negligence.

- 5.2 If the Deliverables are held to infringe or it is believed by the Authority to infringe the rights of others, the Contractor's will, at its expense and upon the Authority's request, to: (i) modify the infringing item to be non-infringing so long as the utility or performance of the Deliverables are not materially impaired and the Deliverables continue to conform to the Technical Specifications and the Authority's original requirements in all respects, subject to the Authority's approval; or (ii) obtain for the Authority a license to continue using the infringing item.
- 5.3 The indemnity obligations contained in this Section shall survive the termination, suspension, abandonment and/or completion of this Contract.
6. Approval. Any approval given by the Authority shall not relieve the Contractor of its obligations and other duties under this Contract or be construed as an assumption or waiver by the Authority.
7. Waivers. No failure by the Authority to insist upon the performance by the Contractor of any provision of this Contract, and no failure of the Authority to exercise any right or remedy consequent upon a breach or other default, and no payment by the Authority or its use of the Project during the continuance of any breach or other default, shall constitute a waiver of the Contractor's breach or default or of any provision of this Contract.
8. UCITA. Neither the Uniform Computer Information Transactions Act nor any state laws incorporating such Act apply to this Contract or the transactions contemplated hereunder.
