BUY AMERICA

The Buy America regulations require that all manufactured products used in FTA-funded projects be produced in the United States. A manufactured product is considered domestic if all of the manufacturing processes for the product take place in the United States and all of the components of the product are of U.S. origin as set forth in 49 C.F.R. § 661.5(d)(1). A component of a manufactured product "is considered of U.S. origin if it is manufactured in the United States, regardless of the origin of its subcomponents." 49 C.F.R. § 661.5(d)(2).

The contractor agrees to comply with 49 U.S.C. § 5323(j) and 49 C.F.R. part 661, which provide that Federal funds may not be obligated unless all steel, iron, and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 C.F.R. § 661.7. Separate requirements for rolling stock are set out at 49 U.S.C. 5323(j)(2)(C) and 49 C.F.R. § 661.11.

The offeror must submit the appropriate Buy America certification with its offer. Offers that are not accompanied by a completed Buy America certification may be rejected as nonresponsive.

In accordance with 49 C.F.R. § 661.6, for the procurement of steel, iron or manufactured products, use the certifications below:
