

## **The GRTC Pulse is headed to Parham Rd**

Demand for transit service along West Broad Street continues to grow, and GRTC and Henrico County are working to meet the need. This includes frequency improvements on the [Route 19](#), plans for additional bus service to support the corridor, and a major expansion of our flagship Pulse Bus Rapid Transit line.

On Tuesday, October 1, GRTC and Henrico County are hosting the first in a series of planned open houses to discuss key project details of the Pulse expansion -including station locations, roadway configuration, and more - and we want to hear from you!

Join us from 5:00 pm to 7:00 pm at Libbie Mill Library to explore exhibits, talk with project staff and local leaders, and make your voice heard on this transformative project for Henrico County and the entire Richmond region.

[Learn more about this and other Pulse expansion projects here.](#)
